Sir:

In response to the Official Action of December  
21, 2001, please amend the above-referenced patent appli-  
cation as follows:

In the claims:

Please replace the claim 1 with the following  
new claim:

- 1 --1. (AMENDED) A tool for use with a manually  
2 operable material removing apparatus having a power  
3 driven output shaft arranged to oscillate about a prede-  
4 termined axis, comprising:  
5 an elongated member having a first section arrang-  
6 ed to be mounted on said output shaft so that the member  
7 extends in a direction at least substantially normal to  
8 said predetermined axis, and

9           a second section remote from said first section  
10   and including at least one at least substantially  
11   straight cutting edge at least substantially normal to  
12   said direction.--.
